Summary

Information Technology undergraduate and Web Developer with strong problem-solving skills and a collaborative mindset. Enthusiastic about building scalable full-stack applications and delivering efficient digital solutions. A proactive team player with experience in hackathons and project-based environments.

Education

Vishwakarma Institute of Technology	2024 - 2028
Bachelor of Technology in Information Technology - CGPA: 9.2	
Geetamata Junior College	2022 - 2024
HSC (Science) - 89%	
D.I.C English Medium School	2022
SSC - 95.60%	

Skills

Languages: C, Java, Python, JavaScript, HTML, CSS

Web: Next.js, Tailwind CSS, Express.js, REST APIs

Database: MongoDB Atlas, MySQL

Tools: Git, GitHub, Postman, VS Code

Concepts: JWT Auth, ML Basics, System Design

Soft Skills: Leadership, Teamwork, Communication

Projects

SkillifyAI - AI-Powered Educational Platform [\[Link\]](#)

AI-powered educational platform designed to enhance learning, evaluation, and academic management for students, faculty, parents, and administrators. Integrates intelligent assessment systems, personalized learning, and real-time performance tracking to improve educational outcomes.

- Built features like AI-based quizzes, face recognition proctoring, personalized tutoring, and smart performance analytics.
- Developed a multi-role system with grievance redressal, faculty tools, and real-time collaboration features.

Udyogini - Women Empowerment Platform [\[Link\]](#)

Hackathon-winning full-stack platform that helps women entrepreneurs showcase their services, manage bookings, and connect with nearby customers. The platform improves digital visibility, trust, and accessibility through a simple and user-friendly interface.

- Implemented booking management, reviews system, multilingual support, and business dashboards.
- Tech Stack: Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT Authentication.

FiscalCare - AI GST Compliance Platform [\[Link\]](#)

Invoice-driven FinTech platform designed to automate GST workflows and simplify tax compliance using real-world accounting logic. The system ensures accurate return generation and audit-ready data processing.

- Built OCR-based invoice processing with AI GST validation and automated GSTR-1, GSTR-2B, and GSTR-3B generation.
- Implemented ITC computation, monthly tax liability calculation, and compliance dashboards.

PredictCare - AI Disease Prediction System (IEEE) [\[Link\]](#)

Healthcare AI platform for disease risk prediction.

- Used XGBoost, CatBoost, Random Forest and NLP.

Experience

AI Developer - CSA VIT Pune *Sep 2025 – Present*

- AI automation pipelines and backend systems.
- ML-integrated student platform features.

Aesthetics Volunteer - EPEC VIT Pune *Sep 2024 – Apr 2025*

- Event creatives and technical fest branding.

Achievements

- 4th position in track 'Future Learning' - Ignition Hackverse 2026, PVG College
- Best Solution Award - Techathon 3.0 National Hackathon (EdTech Domain)
- 3rd Prize - She Solves 2.0 Hackathon (Team Pixel Petals)
- IEEE Paper Published - GCWCN 2025
- Published Research - GIJET Journal (AITC 2025)
- Kurukshetra Hackathon - Round 2 Qualified

Certifications

- Cyber Security & Ethical Hacking - Vodafone
- TRF Robotics Level-1 - VIT Pune
- German Language A1 - ASAP Institute
